

# Sheep Cheeses EXTRA-AGED

Made with unpasteurized sheep milk

## AGEING

>330 days.

## CHARACTERISTICS

Uneven-sized eyes with homogeneous distribution and a shiny, ivory surface. Soluble, semi-hard paste. Intense, enduring aroma, and smooth taste with moments of strength.

## RIND

Brown colour, with a well-marked and defined plait.

## STORAGE

Keep refrigerated between 2 and 8°C. Protect the cut surface of the cheese with aluminium foil or shrink-wrap.

## BEST SERVED

This extra-aged cheese should be removed from the fridge with enough time for it to reach around 20°C. At that temperature, its aroma and flavour come through in all their intensity.
